MEMORANDUM FOR: Director of Central Intelligence

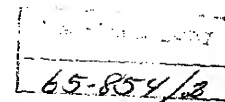

SUBJECT: Early Retirement Regulations

1. This memorandum is for information.
2. Attached is a copy of the early retirement regulations. The paper clips mark the spots where changes were made and there is a brief explanation of the changes. These changes resulted from points suggested by the lawyers and after discussion the specific language was agreed upon by them and ourselves.
3. The reading of these individual changes is deceptive as their significance is not readily apparent and they do not change the basic concept which we had intended in our draft. What they do, however, is simplify the regulations and clarify certain points which would otherwise cause confusion or controversy at some point. This was a real contribution to the ease with which these regulations have cleared through the Bureau of the Budget and our committee staffs, as noted in paragraph 5 below.
4. An additional help in these clearances derives from the fact that the lawyers also rendered their independent judgment that these regulations are consistent not only with the express language of the statute but also with the intent of the Congress in enacting the early retirement law as expressed in hearings, floor statements, and in the committee reports.
5. For your information, the staff review in the Bureau of the Budget is completed through Bob Amory's level without any change and a letter of approval is awaiting Kermit Gordon's signature. Further, the staffs of the two Armed Services Committees have completed their review without any change, and they too are preparing letters for signature by the Chairmen and the ranking minority members expressing their approval.
